# CITY OF WEST DES MOINES
# CITY COUNCIL MEETING COMMUNICATION

**DATE: February 23, 2015**

**ITEM:** Clocktower Square, 2800 and 2900 University Avenue – Approval of a Site Plan for exterior modifications, parking lot changes, and storm water improvements – Clocktower Square Baceline LLC – MaM-001874-2013

**RESOLUTION:** **Approval of a Major Modification to Site Plan**

**FINANCIAL IMPACT:** Undetermined.

**BACKGROUND:** The applicant, Clocktower Square Baceline, LLC, represented by Mike Lotte, Baceline Investments, Josh Trygstad of Civil Design Advantage, and Marty Barkley, OnSite Solutions, requests approval of a major modification to a site plan to approve architectural changes, re-design and reconstruction of part of the parking lot, and construction of storm water management improvements.

Plan and Zoning Commission Action:
Vote: 6-0 approval, Commissioner Brown absent
Date: January 5, 2015
Motion: Adopt a resolution recommending the City Council approve the Major Modification to a Site Plan request.

Kara Tragesser, Planner, explained the circumstance of the open space landscape requirements and the situation with the easement and future right-of-way. Ms. Tragesser proposed to the Commission a condition of approval to waive the overstory and evergreen tree requirements for the open space due to the lack of unencumbered area to place the landscaping.

Jeremy Christiani, 1100 50th Street, West Des Moines opposed granting the major modification because he believes it is not in compliance with City Code or the Planned Unit Development. Mr. Christiani noted that possible lack of screening of trash dumpsters as viewed from 28th Street, that there appeared to be outdoor storage of items, a vehicle sign, and other alleged violations of sign code, screening, outdoor storage, and the Planned Unit Development ordinance.

**OUTSTANDING ISSUES:** There are no outstanding issues. The applicant is in agreement with the recommended conditions of approval. Staff notes the following:

Sign along University Avenue: as proposed at the Plan & Zoning Commission, a development sign or monument sign was proposed to be located in the future right-of-way for University Avenue. The Plan and Zoning Commission approved a resolution with a condition that the sign be allowed to be located within the future right-of-way along with a required hold harmless agreement in favor of the City. In working with the applicant, the sign now will be located outside of the future right-of-way. Therefore, that condition of approval has been removed.
