CITY OF WEST DES MOINES
CITY COUNCIL MEETING COMMUNICATION

4(n)2

DATE: **September 21, 2015**

ITEM:

Resolution - Approving Professional Services Agreement
Ashworth Road Street Lights Improvements
Prairie View Drive to 60th Street
HR Green Inc.

FINANCIAL IMPACT:

The cost of the Professional Services Agreement associated with the design of this project is anticipated not to exceed $8,500.00.

Should the cost for the professional engineering services be projected to exceed the amounts set forth in the contract, staff would not authorize such expenditures without further approval by the City Council.

All costs for these services can be paid from budgeted account no. 3518.75.820.6.7910 with the ultimate funding attended to come from General Obligation Bonds.

BACKGROUND:

Approval of this action authorizes HR Green Inc., to perform the design necessary for the Ashworth Road Street Lights Improvements project from Prairie View Drive to 60th Street. This section of Ashworth Road is under lighted and the area is fully developed. The installation of the lights will be by Mid-American Energy Company.

The Engineering Services Department retains design consultants based on their past work experience, qualifications of their staff, familiarity with the project, manpower availability, and past consultant evaluation. Once a firm has been selected based on the above criteria, City staff then negotiates a fee with the consultant for performing the desired scope of services. City staff attempts, whenever feasible, to distribute engineering work on an equitable basis to qualified firms maintaining local metropolitan area offices who have expressed interest in working for the City of West Des Moines.

In the event that sufficient funding is not appropriated in whole or in part for continued performance of the City's obligations under this Agreement, or if appropriated funding is not expended due to City spending limitations, the City may terminate this Agreement without further compensation to the Consultant. To the greatest extent allowed by law, the City shall compensate Consultant as provided in Section 18(B) of this Agreement.

13. AUTHORIZED AMENDMENTS TO AGREEMENT

A. The Consultant and the City acknowledge and agree that no amendment to this Agreement or other form, order or directive may be issued by the City which requires additional compensable work to be performed if such work causes the aggregate amount payable under the amendment, order or directive to exceed the amount appropriated for this Agreement as listed in Section 3,

B. The Consultant and the City further acknowledge and agree that no amendment to this Agreement or other form, order or directive which requires additional compensable work to be performed under this Agreement shall be issued by the City unless funds are available to pay such additional costs, and the Consultant shall not be entitled to any additional compensation for any additional compensable work performed under this Agreement. (30) days written notice within a period of six (6) months after such suspension, unless this period is extended by written consent of the Consultant.

B. Upon ten (10) days written notice to the Consultant, the City may terminate the Agreement at any time if it is found that reasons beyond the control of either the City or Consultant make it impossible or against the City's interest to complete the Agreement. In such case, the Consultant shall have no claims against the City except for the value of the work performed up to the date the Agreement is terminated.

C. The City may also terminate this Agreement at any time if it is found that the Consultant has violated any material term or condition of this Agreement or that Consultant has failed to maintain workers' compensation insurance or other insurance provided for in this Agreement. In the event of such default by the Consultant, the City may give ten (10) days written notice to the Consultant of the City's intent to terminate the Agreement. Consultant shall have ten (10) days from notification to remedy the conditions constituting the default.

D. In the event that this Agreement is terminated in accordance with paragraph C of this section, the City may take possession of any work and may complete any work by whatever means the City may select. The cost of completing said work shall be deducted from the balance which would have been due to the Consultant had the Agreement not been terminated and work completed in accordance with contract documents.

E. The Consultant may terminate this Agreement if it is found that the City has violated any material term or condition of this Agreement. In the event of such default by the City, the Consultant shall give ten (10) days written notice to the City of the Consultant's intent to terminate the Agreement. 21. MISCELLANEOUS HEADINGS

Title to articles, paragraphs, and subparagraphs are for information purposes only and shall not be considered a substantive part of this Agreement.

22. FURTHER ASSURANCES

ATTACHMENT 1
SCOPE OF SERVICES

The proposed project involves improving the street lighting along Ashworth Road from Prairie View Drive to 60nd Street. Currently, this section of Ashworth is illuminated with utility cobra-head style luminaires mounted on utility power distribution wood poles on the south side only. Ultimately, the City plans to replace the current lighting with standard utility cobra-head luminaires on direct-buried poles staggered along both sides of the street. In the interim, the utility power distribution poles will remain along the south side and are planned to be replaced with an underground system in the future. Therefore, in the interim, only the north side lighting structures will be installed. This project will first determine the ultimate layout of the lighting and then provide final layout design drawings of the new lighting on the north side.

Information provided by the City:

1. The City is in the process of upgrading the north side of the right-of-way corridor to include a multi-use trail. The City will make available the electronic design files from the trail improvements project for use by the Consultant as existing background drawings for the lighting layout design. The electronic background files/drawings will contain as a minimum:
    a. Street alignment including back of curb lines,
    b. Sidewalks,
    c. Right-of-way and intersecting property lines,
    d. Underground utilities within the right-of-way.
2. The City will also provide any plans for known future ultimate build out of the street and adjoining/intersecting streets.
3. This scope of services assumes the electronic files provided by the City to the Consultant will include survey-grade representations of the existing corridor infrastructure (streets, water, storm/sanitary sewers, power/communication/gas utilities). No additional topographical survey of the corridor is required.

I. BASIC SERVICES OF THE CONSULTANT.

The Consultant shall communicate on a regular basis with the City to clarify and define the City's requirements for the Project and review available data. The City agrees to furnish to the Consultant full information with respect to the City's requirements, including any special or extraordinary considerations for the Project or special services needed, and also to make available pertinent existing data. The Consultant shall provide the following basic services in regard to the Project:

1. Obtain from the City necessary existing electronic files and/or hard copies of the Ashworth design drawings, including existing underground public utilities, and other pertinent information such as street classification(s) and adjoining property zoning classification(s).
2. Visit the project location to observe existing conditions and location of the existing street lighting along Ashworth and on the adjoining streets.
3. Develop base map background drawings of the corridor sufficient to perform photometric design and depict the lighting layout.
4. Perform photometric analysis based on Utility's current inventory of street lighting equipment and the City's current street lighting policy standards.
5. Perform a preliminary design of the ultimate street lighting layout along the corridor showing the location of each street light structure.
6. Complete final layout design drawings of the lighting, support documentation describing the lighting design criteria used, and the results of the photometric analysis. Submit the documents to the City and the electric utility for final review and approval.
7. Incorporate any final review comments from the City and utility into the design and provide final documents to both.
8. Provide construction staking for the Utility Company.
9. It is also estimated that the Consultant's staff will attend approximately one meeting with the City, and others to review progress, assist in decision making, and receive direction from the City. It is understood by the parties that the Consultant will attend additional meetings as needed to complete the Project.

10. The project manager for the Consultant will be responsible for monthly progress reporting, interoffice memoranda, and invoicing. This task also includes scheduling of staff, review of progress, and senior review of deliverables.

II. RESIDENT CONSULTANT SERVICES - N/A

III. ADDITIONAL SERVICES

Additional Services not included as part of this Scope. If authorized, under a supplemental agreement, the Consultant shall furnish or obtain from others the following services:

1. Selection of the lighting support structures
2. Design of the electrical service and power distribution serving the street lighting
3. Land survey and/or topographic survey
4. Environmental analysis
5. Construction document development
6. Bid phase services
7. Construction Phase services.

ATTACHMENT 2
PROJECT SCHEDULE
