CITY OF WEST DES MOINES
CITY COUNCIL MEETING COMMUNICATION

Date: October 31, 2016

ITEM: Phase 1B Edgewater Building Addition, 9225 Cascade Avenue – Approval of an approximately 98,000 square foot building addition and associated landscaping – Wesley Active Life Community, LLC – MaM-003163-2016

RESOLUTION: Approval of Major Modification to Site Plan

FINANCIAL IMPACT: Undetermined.

BACKGROUND: The applicant, Gary Reed with Civil Design Advantage on behalf of Wesley Active Life Community, LLC is requesting, approval of a major modification to a site plan for the construction of a four-story, 98,000 square foot building addition and associated landscaping for that development known as Edgewater and located at 9225 Cascade Avenue. This building addition will add 38 resident rooms to their existing building. Under-building parking is being incorporated. The building design and materials will match with that of the existing building.

Plan and Zoning Commission Action:
Vote: 7-0 approval
Date: October 24, 2016
Motion: Adopt a resolution recommending the City Council approve the Major Modification to Site Plan

OUTSTANDING ISSUES: There are no outstanding issues. Staff notes the following:

- *Storm Water Management Facility Maintenance Agreement:* The original building and site improvements occurred prior to City requiring execution of a Storm Water Management Facility Maintenance Agreement. As a part of newer development actions, the City tries to obtain the agreement to ensure proper maintenance of detention areas. The applicant provided the agreement; however, during the final review, it was discovered that the lienholder has not signed the document. The applicant is working diligently to obtain the signature and can't afford a delay in approval because the end of the construction season is quickly approaching. Staff would like to work with the applicant and recommends proceeding with the Major Modification with a condition of approval requiring the submittal of the completed document before any building permits for above ground construction can be issued. Staff has included a condition indicating the City Council acknowledges the agreement and authorizes the City Clerk to sign the agreement once it is provided with all of the necessary signatures.

The following items of interest are noted in the attached Plan and Zoning Commission report (see Exhibit I):

- Applicant's Request
- History
- City Council Subcommittee - *Development & Planning: 9/19/2016*
- Staff Review and Comments
  - *Sugar Creek Storm Water Connection Fee District*
  - *Storm Water Management Facility Maintenance Agreement*
- Comprehensive Plan Consistency
- Findings
- Staff Recommendations and Conditions of Approval
- Owner/Applicant Information

RECOMMENDATION: Based upon the preceding review and a finding of consistency with the goals and policies of the Comprehensive Plan, the Plan and Zoning Commission recommends the City Council approve the Major Modification to allow the construction of a 98,000 square foot building addition and associated landscaping, subject to the applicant meeting all City Code requirements and the following:

1. The applicant acknowledging and agreeing that building permits for any above ground construction will not be issued until such time that the applicant provides a Storm Water Management Facility Maintenance Agreement signed by all parties. The City Council acknowledges the agreement and authorizes the execution by the City of the agreement upon provision of an agreement signed by all necessary parties.

CITY OF WEST DES MOINES
PLAN AND ZONING COMMISSION COMMUNICATION

Meeting Date: October 24, 2016

Item: Phase 1B Edgewater Building Addition, 9225 Cascade Avenue – Approval of an approximately 98,000 square foot building addition and associated landscaping – Wesley Active Life Community, LLC – MaM-003163-2016

Requested Action: Approval of Major Modification to a Site Plan

Case Advisor: J. Bradley Munford JBM

Applicant's Request: The applicant, Gary Reed with Civil Design Advantage on behalf of Wesley Active Life Community, LLC is requesting, approval of a major modification to a site plan for the construction of a four-story, 98,000 square foot building addition and associated landscaping for that development known as Edgewater and located at 9225 Cascade Avenue. This building addition will add 38 resident rooms to their existing building. Under-building parking is being incorporated. The building design and materials will match with that of the existing building. This Phase 1B building addition, along with a potential future Phase 1C building addition to add another 29 rooms was planned and shown with the original concept site plan submitted for the existing building.

History: The City Council approved a Rezoning Request to establish the Tallyn's Reach PUD (aka Michael's Landing and/or Woodland Hills development) on June 19, 2006. The original site plan for the Edgewater development was approved on September 24, 2007.

City Council Subcommittee: This project was presented to the Development and Planning City Council Subcommittee on September 19, 2016. No disagreement with the proposed major modification was expressed.

Staff Review and Comment: This request was distributed to other City departments and other agencies for their review and comment. There are no outstanding issues. Staff notes the following:

- Sugar Creek Storm Water Connection Fee District: As indicated above, this addition was indicated in the original concept site plan for the existing Edgewater building. Per the adopted ordinance establishing this connection fee district, '*Platted property, developed or undeveloped, subject to an approved development plan with the City on the effective date hereof establishing the connection fee district for the area where the property is located is exempt from and not subject to the connection fee*'.

- The original building and site improvements occurred prior to City requiring execution of a Storm Water Management Facility Maintenance Agreement. As a part of newer development actions, the City tries to obtain the agreement to insure proper maintenance of detention areas. Staff has requested and the applicant has provided a Storm Water Management Facility Maintenance Agreement for this development.

Comprehensive Plan Consistency: The project has been reviewed for consistency with the Comprehensive Plan. Based upon that review, a finding has been made that the proposed project is consistent with the Comprehensive Plan in that the project is consistent with all of the goals and policies of the Comprehensive Plan and the land use map of the Comprehensive Plan.

Findings: This proposed project was distributed to various City departments for review and comment. Based upon that review, the following findings have been made on the proposed project:

1. The proposed development and use is consistent with the West Des Moines Comprehensive Plan in that the project has been reviewed for consistency with the Comprehensive Plan. Based upon that review, a finding has been made that the proposed project is consistent with the Comprehensive Plan in that the project is consistent with all of the goals and policies of the Comprehensive Plan.

2. The proposed development and use does assure compatibility of property uses within the zone and general area in that this project was reviewed by various City Departments for compliance with the Zoning Ordinance.

3. All applicable standards and conditions have been imposed which protects the public health, safety and welfare in that this project was reviewed by various City Departments and public agencies for compliance with the various state and local regulations. Based upon that review a finding is made that the project has been adequately conditioned to protect the health, welfare and safety of the community.

4. There is adequate on-site and off-site public infrastructure to support the proposed development in that this project was reviewed by various public agencies, City Departments, and public utilities to ensure that either the petitioner will construct or the project has been conditioned to construct adequate public infrastructure to serve the development.

5. The proposed development and use has met the requirements contained in the City Code in that this project was reviewed by various City Departments and the project has complied with or has been conditioned to comply with all City Code requirements.

6. The proposed development and use is in keeping with the scale and nature of the surrounding neighborhood in that the proposed project is consistent with the zoning designation and Comprehensive Plan which designates this site as suitable for development such as that proposed by this project.

Staff Recommendation And Conditions Of Approval: Based upon the preceding review and a finding of consistency with the goals and policies of the Comprehensive Plan, staff recommends the Plan and Zoning Commission adopt a resolution recommending the City Council approve the Major Modification to a Site Plan for Edgewater Building Addition allowing the construction of a 98,000 square foot building addition and associated landscaping to the Edgewater development located at 9225 Cascade Avenue, subject to the applicant meeting all City Code requirements.

RESOLUTION NO. PZC-16-065

A RESOLUTION OF THE PLAN AND ZONING COMMISSION OF THE CITY OF WEST DES MOINES, RECOMMENDING TO THE CITY COUNCIL THAT IT APPROVE A MAJOR MODIFICATION (MaM-003163-2016) FOR A 98,000 SQUARE FOOT BUILDING ADDITION AND ASSOCIATED LANDSCAPING AT 9225 CASCADE AVENUE

WHEREAS, pursuant to the provisions of Title 9, Chapter 1 et seq, of the West Des Moines Municipal Code, the applicant, Wesley Active Life Community, LLC, has requested approval of a Major Modification Permit (MaM-003163-2016) for that property located at 9225 Cascade Avenue to construct a 98,000 square foot building addition and related site improvements;

WHEREAS, studies and investigations were made, and staff reports and recommendations were submitted which are made a part of this record and herein incorporated by reference;

WHEREAS, on October 24, 2016, this Commission held a duly-noticed public meeting to consider the application for Major Modification;

NOW, THEREFORE, THE PLAN AND ZONING COMMISSION OF THE CITY OF WEST DES MOINES DOES RESOLVE AS FOLLOWS:

SECTION 1. The findings, for approval, in the staff report noted above, or as amended orally at the meeting on this date, are adopted.

SECTION 2. The Major Modification to construct a 98,000 square foot building addition and related site improvements is recommended to the City Council for approval, subject to compliance with all the conditions in the staff report, including conditions added at the meeting, and attached hereto as Exhibit "A". Violation of any such conditions shall be grounds for revocation of the permit, as well as any other remedy which is available to the City.

PASSED AND ADOPTED on October 24, 2016.
