RE: Project Update
South 50th Street Widening - Mills Civic Parkway to E.P. True Parkway

Absolute Concrete will begin Stage 2 of the project on Monday November 14th. As a result, they will open a segment of South 50th Street from E.P. True Parkway to Coachlight Drive for local traffic only. There will be one lane open in each direction so the contractor may utilize the outside lanes to continue grading and clean up between the curbs and sidewalks. You will not be able to drive clear through the project until Stage 2 is open.

All residents on Raintree Drive and Coachlight Drive will need to utilize the Coachlight Drive intersection to access South 50th Street to travel north to EP True Parkway for the remainder of the project. The side streets north of Coachlight Drive will be opened as they are completed later this month.

Stage 2 work will require South 50th Street to be closed from Raintree Drive to Hawthorne Drive, which includes both of the intersections. The Waterford Drive intersection will remain closed until South 50th Street is completed to Bentley Drive.

The traffic switch occurring Monday November 14th will be in place through the Thanksgiving weekend. Absolute Concrete will complete as much of the project this year, but winter weather will determine when they have to stop work for 2016. South 50th Street will be open from Mills Civic Parkway to E.P. True Parkway over the winter.

If you would like a weekly update on this or any other City construction projects, please visit our website at www.wdm.iowa.gov/ConstructionUpdates. You also may receive email notification when construction updates are posted by signing up for eUpdates on this page of the website.

As with all paving operations, saw cutting of the joints in newly poured pavement is critical and it may be disruptive beyond normal work hours. Site lighting also may be required so that crews can work at night.

H.R. Green, Inc. is performing the construction inspection and observing the daily progress of the work throughout the project for the City of West Des Moines. If an issue develops during the project, you may contact the individuals listed below:
