CITY OF WEST DES MOINES
STAFF REPORT COMMUNICATION

Meeting Date: March 18, 2024

ITEM: Porsche Des Moines, 7220 Lake Drive – Approve Phased Site Plan to allow grading and construction of footings, foundations, and private utilities – LBP Des Moines, LLC – SP-006230-2023

Resolution: Approval of Phased Site Plan

Background: The applicant and property owner, LBP Des Moines, LLC, requests approval of a Phased Site Plan for the approximately 2.20-acre property located at 7220 Lake Drive. The applicant proposes to construct an auto dealership building and requests approval to begin grading, construct footings and foundations for the building and install private utilities. The full site plan will be brought forward in the near future once final building façade and landscaping details are finalized.

Staff Review & Comment:

- *Financial Impact:* No City funding of the project. Staff time for processing of development application and inspections during construction.
- *Vesting of Entitlement:* Per City Code, entitlement (approval to construct or implement) shall remain in effect so long as substantial site work has progressed beyond grading and completion of structural foundations and twenty-five percent (25%) of the total building area has occurred above grade within twenty-four (24) months of the effective date of the approval, unless a greater time period is authorized at time of the original entitlement, or by approval of an extension of the original entitlement. It is the responsibility of the developer to be aware of this deadline and request an extension of the approval prior to the expiration date.

Outstanding Issues: There are no outstanding issues.

Planning and Zoning Commission Action:

Date:	March 11, 2024
Vote:	4-0, for approval with Commissioners Conlin, McCoy, Shaw absent
Recommendation:	Approve the Phased Site Plan

Recommendation: Approve the Phased Site Plan request, subject to the applicant meeting all City Code requirements, and the following conditions of approval:

1. The property owner and applicant acknowledge and agree that this approval does not allow for any above ground construction or implementation of any other site improvements beyond that indicated. Approval of the full site plan and provision of adequate access and confirmation that all fire hydrants are installed for emergency services access during construction is required before above ground construction or other site improvements are installed.
