On Item 6(a) Mayor Gaer indicated this was the time and place for a public hearing to consider 1000 and 1100 South 60th Street - Amend Comprehensive Plan Land Use Map to Change the Land Use Designation from Low Density Residential to Single Family Residential and Change the Zoning from Residential Estate to Residential Single Family, initiated by Toby Torstenson. He asked for the date the notice was published and the City Clerk indicated the notice was published on November 1, 2019 in the Des Moines Register. Mayor Gaer asked if any written comments had been received. The City Clerk stated on a vote of 7-0, the Plan and Zoning Commission recommended City Council approval of the comprehensive plan amendment and rezoning request. He also stated one citizen correspondence was received, which was included with the council communication.

Mayor Gaer asked if there were any public comments.

Helen Harwood, 1205 Tulip Tree Lane, spoke in opposition to the proposed land use change, citing concerns that the increased density could impact the feel of the surrounding neighborhood and impact the wildlife in the area. She noted the current zoning on the property is consistent with the surrounding neighborhood, and she does not believe there is a need for this change.

Ryan Hardisty, Civil Design Advantage, 3405 SE Crossroads Drive, Grimes, representing the applicant, presented preliminary plans for the proposed development. He noted the average lot size for this proposed development will be approximately 0.8 acres, which is about double the lot size of the existing homes along Tulip Tree Lane.

November 18, 2019

Lynne Twedt, Development Services Director, responded to questions from the Council, stating the proposed change would increase the number of lots allowed in this development from nine to twelve. She also stated the proposed change would likely allow for more trees to be kept than if they tried to develop the land under the current land use and zoning restrictions. She noted the exact layout of the lots would not be determined until the final plat process, and staff is recommending the second and third readings of this ordinance remain on hold so they can come back to Council at the same time as the final plat.

Council member Mickelson arrived in person and ceased his participation via telephone at 5:51 p.m.

Council member Trevillyan inquired if the Council can impose a condition of approval restricting the development's number of lots to no more than twelve.

City Attorney Scieszinski responded the Council does have the option to do that.

Mayor Gaer asked if there were any additional public comments; hearing none he declared the public hearing closed.

It was moved by Sandager, second by Trevillyan to adopt Resolution - Approval of Comprehensive Plan Amendment.

Mayor Gaer requested that staff send notice to the neighboring residents when the second and third reading come back to Council.

It was moved by Sandager, second by Mickelson to adopt Motion - Continue Public Hearing to December 2, 2019.

Vote 19-538: Hardman, Mickelson, Sandager, Trevillyan, Trimble...5 yes
Motion carried.

On Item 6(c) Mayor Gaer indicated this was the time and place for a public hearing to consider Dowling Catholic, 1400 Buffalo Road - Establish a Planned Unit Development (PUD) to Provide a Framework for Continued Development and Expansion of a School Campus While Fitting within the Context of the Established Neighborhood, initiated by Dowling Catholic High School. He asked for the date the notice was published and the City Clerk indicated the notice was published on November 1, 2019 in the Des Moines Register. Mayor Gaer asked if any written comments had been received. The City Clerk stated on a vote of 7-0, the Plan and Zoning Commission recommended City Council approval of the PUD ordinance.

Mayor Gaer asked if there were any public comments.

Dr. Dan Ryan, Dowling Catholic High School, stated the school was recently presented with opportunities to purchase four lots adjacent to the school property. He noted they do not have immediate plans for the use of this space, but since the school property is landlocked, they felt it was a good opportunity to take control of the land for future use, which may include athletic fields and/or parking lots. He noted the homes will remain on the lots and be rented for the time being.

Leslie Keely, 1715 17th Street, expressed concerns about potential plans for additional athletic fields on the land directly behind her home, as she believes that could generate noise issues on her property. She noted the proposed plan includes a three foot berm, but she does not believe that will sufficiently mitigate any noise generated by athletic fields.

Mayor Gaer noted the specific layout of the property will be determined through the site plan process, which is not included in what is being considered tonight. He requested that staff send notice to the neighboring residents when the proposed site plan comes to Council.

Ms. Keely expressed concerns that the proposed plan requires a property line setback of only 50 feet for a structure for accessory uses, such as maintenance buildings or transportation buildings. She noted such buildings being constructed on the 17th Street lots would negatively impact the feel of their residential street.

November 18, 2019

Mayor Gaer stated that Ms. Keely's additional concerns are also site plan issues. He noted the City will ask Dowling Catholic High School to meet with the residents to get their feedback during the site plan process.

Jim May, 1442 17th Street, expressed concerns about the possibility of a football field being constructed across the street from his house.

Amber Nigon, 1714 17th Street, spoke in opposition to the proposed PUD ordinance, stating she has young children and would prefer to maintain the quiet residential neighborhood as it exists today.

Steve Bush, 1522 17th Street, spoke in opposition to the proposed PUD ordinance, and he believes the proposed three-foot berm would not sufficiently mitigate any noise generated from the school property, because the properties on the west side of 17th Street are elevated several feet higher than those on the east side. He suggested the City should require a six-foot fence on top of a three-foot berm.

Mayor Gaer asked if there were any public comments; hearing none he declared the public hearing closed.

It was moved by Mickelson, second by Sandager to consider the first reading of the ordinance.

Lynne Twedt, Development Services Director, responded to questions from the Council, stating the proposed soccer field that was discussed could go in without this PUD ordinance. She noted the PUD would provide the City better flexibility to control how the Dowling campus develops compared to the straight zoning that exists today.

Dr. Ryan stated that Dowling Catholic High School was trying to be proactive in establishing the PUD at this time, and they plan to meet with the neighbors as they determine how to develop the campus. At this point, any plans the residents have seen are very preliminary and no decisions have been made yet regarding the possible placement of a soccer field or any other amenities. He noted, however, there is not sufficient space on the campus to construct a football stadium.

Vote 19-539: Hardman, Mickelson, Sandager, Trevillyan, Trimble...5 yes

Mayor Gaer asked if there were any public comments; hearing none he declared the public hearing closed.

It was moved by Trimble, second by Sandager to consider the first reading of the ordinance.

Council member Trevillyan requested clarification on this ordinance amendment.

Lynne Twedt, Development Services Director, stated this proposed ordinance applies only to corner lots which share a common rear lot line, which had traditionally required a 30 to 35-foot side yard setback along both street frontages. The secondary frontage or side yard would now be reduced to 20 feet.

On Item 9(a) Vicious Dog Investigation

City Attorney Dick Scieszinski provided an update on the vicious dog investigation, and he apologized to the Sears family for his previous reporting of the matter at the November 4th council meeting, as his wording could have been interpreted to suggest that Ms. Sears was at fault in provoking the dog. He clarified his comments by stating Ms. Sears was in no way at fault. He reported that staff has met with the Misner family, but they decided to not voluntarily give up the dog. Staff also met with the Sears family to discuss the situation, and the Sears family still believes the dog should have been declared vicious after the initial attack of Ms. Sears. He also reported that staff was informed that the Misner's insurance company was not aware that the dog had been declared vicious prior to issuance of the policy, and although the insurance company intends to honor the one-year policy, it does not intend to renew it. He noted that the animal control investigator was unaware that the US Postal Service would stop home delivery due to the presence of the vicious dog at the Misner residence, and had that information been known, it could have led to a different recommendation regarding placement of the dog. He suggested that staff should be directed to meet with the Misners one more time to discuss the insurance issue and the possibility of placing the dog elsewhere due to the refusal of the US Postal Service to make home deliveries. If the Misners choose not to relocate the dog, the matter could be brought to the City Council to make a determination at the December 2nd meeting.

The Mayor and Council held discussion on the matter, and expressed support for Mr. Scieszinski's suggestion.

Sean Murtha, 539 9th Street, expressed concerns about the safety of the residents with the vicious dog remaining on the street. He suggested the dog owners could be required to put their dog through obedience training, and he noted that Furry Friends Refuge has offered to hold dogs in such situations.

Erin Sears, 1115 27th Street, Des Moines, expressed appreciation to the Mayor and Council for hearing the residents' concerns and to Mr. Scieszinski for his apology. She expressed concerns that the US Postal Service may install a community mailbox on 9th Street while the City is going through its due process on the vicious dog, at which point the residents would never have home delivery reinstated.

Mr. Scieszinski responded the US Postal Services assured him they will not install a community mailbox until a final determination has been made regarding the vicious dog.

Ms. Sears noted the Misners have had gatherings at their home while the dog has been on home quarantine. She inquired how the neighbors should report such cases when they occur.

Mayor Gaer suggested the residents should report such cases to City Attorney Scieszinski.

November 18, 2019

Mr. Scieszinski noted if it is during non-business hours, they should call the police non-emergency number.

Mayor Gaer noted the agenda included an executive session for pending/threatened litigation. He inquired if that is still needed.

Mr. Scieszinski responded it is no longer needed.

The meeting was adjourned at 6:59 p.m.

Respectfully submitted,

Ryan T. Jacobson, CMC
City Clerk

ATTEST:

Steven K. Gaer, Mayor
