## Discussion Item #1 – Chicken Coop/3 Sons Patio Use

- January 3, 1994: Site plan approved construction of center.
- August 10, 1998: Permitted Conditional Use Permit approved allowing use of the patio on a trial basis from August 10<sup>th</sup> to October 31, 1998, with the following conditions:
  - Back doors of restaurant cannot be propped open
  - Use restricted from 11:00am to 2:00pm Monday thru Friday with food service to cease at 1:30pm.
- Further discussion:
  - restaurant owner offered to install 6' fence around patio; install Honeysuckle trees as additional buffer; service on patio would cease at 10:00pm; and door would remain closed at all times.
  - Residents: some okay with lunch time use; others opposed to even lunch time use as believed use would escalate to other times
- May 29, 1999: meeting with neighbors (various city staff, restaurant owner, property owner & 10 adjacent residents)
  - No resolution on use of patio
- June 20, 2013: Notice of Zoning Violation issued to Legends American Grille
  - Violation of liquor license due to use of patio and outdoor storage of furniture, kegs, boxes on the patio
- April 2019: 3 Sons Restaurant opened (indicated unaware of previous issues with patio use)
- Summer 2020 & Spring 2021: Noise complaints from patio use
- May 26, 2021: Notice to cease use of the patio for any purpose was personally served by Police to the restaurant.

## Discussion Item #3 - Indoor Storage Tenant Access Hours

- In 2015, the City modified the City Code, Title 9, Zoning, to allow indoor storage buildings in the Office, Professional Commerce Park and Commercial zoning districts.
- Performance standards were put in place, especially in the Office and Professional Commerce Park districts, to regulate the architecture standards, potential re-use of the buildings, and hours of operation.
- Hours of Operation:
  - The ordinance established that tenant access to the units would be allowed between 7a and 10p. This regulation is different than traditional mini-storage (allowed only in the general and light industrial districts with no regulation of the hours of operation) due to the potential to be adjacent to residential development.
  - With a recent enforcement of those hours, there was a situation where existing tenants accessed their units as early as 6a: presented as commercial business tenants accessing the storage for product and equipment for the day.
  - Staff referred to the noise ordinance for guidance and most activity that is known to generate noise is limited to the same hours of 7a to 10p.
- Staff is questioning whether for the purposes of indoor storage if the hours of operation could start at 6a or 6:30a where the orientation of the access to the building is not towards the residential development.
